

# Smart Strip Rebate Program

## Stop paying for wasted electricity.

### The Smart Strip Surge Protector automatically turns your peripherals off, helping save on your HMLP bill.

- The Smart Strip makes shut down fast, easy and complete.
- Turn on/off your computer and your peripherals turn on/off automatically.
- Works with the Sleep and Hibernate Mode of all computers.
- No more bending over to turn off your surge protector.
- No more turning off multiple switches.
- Stop wasting over 100 watts every hour.
- Save more energy than replacing your entire computer system.
- **Saves a minimum of \$39 per year in energy costs.** (source: US Dept of Energy)
- **Pays for itself in energy savings in as little as 3 to 6 months.**
